Sound & Spirit section – Change text as follows (highlighted below):

Formed in 2018 in the Greater Sacramento area, Southbound has spent years honing the twin-lead guitar harmonies, the organ-driven Hammond grooves, and the powerful three-part vocal blend that defined the classic Southern Rock era. Whether it's the **Fillmore**-worthy emotion of an Allman Brothers ballad or the full-tilt boogie of a Lynyrd Skynyrd anthem, this band plays every note like it matters.

The band brings 6 seasoned musicians to every stage — from intimate club rooms and outdoor summer festivals to full-scale theater productions. Southbound can perform up to **4-1/2 hours of classic and modern Southern Rock tunes** without repeating a song, covering the essential canon of Southern Rock from the 1970s through today.

4) Change item 2 to read: 4-1/2 Hours of Music
5) Please add artists: Black Crowes, Chris Stapleton, Blackfoot, Many More

Meet the Band section

6) Adjust image so the heads are not cut off.
7) Adjust individual photos so that only the 1 individual is shown. Crop out other faces so they are not shown.

Note: I can provide alternate photos for each individual band member.

The Live Concert & Promo Gallery sections looks good, but I will need the ability to change the videos that are displayed.

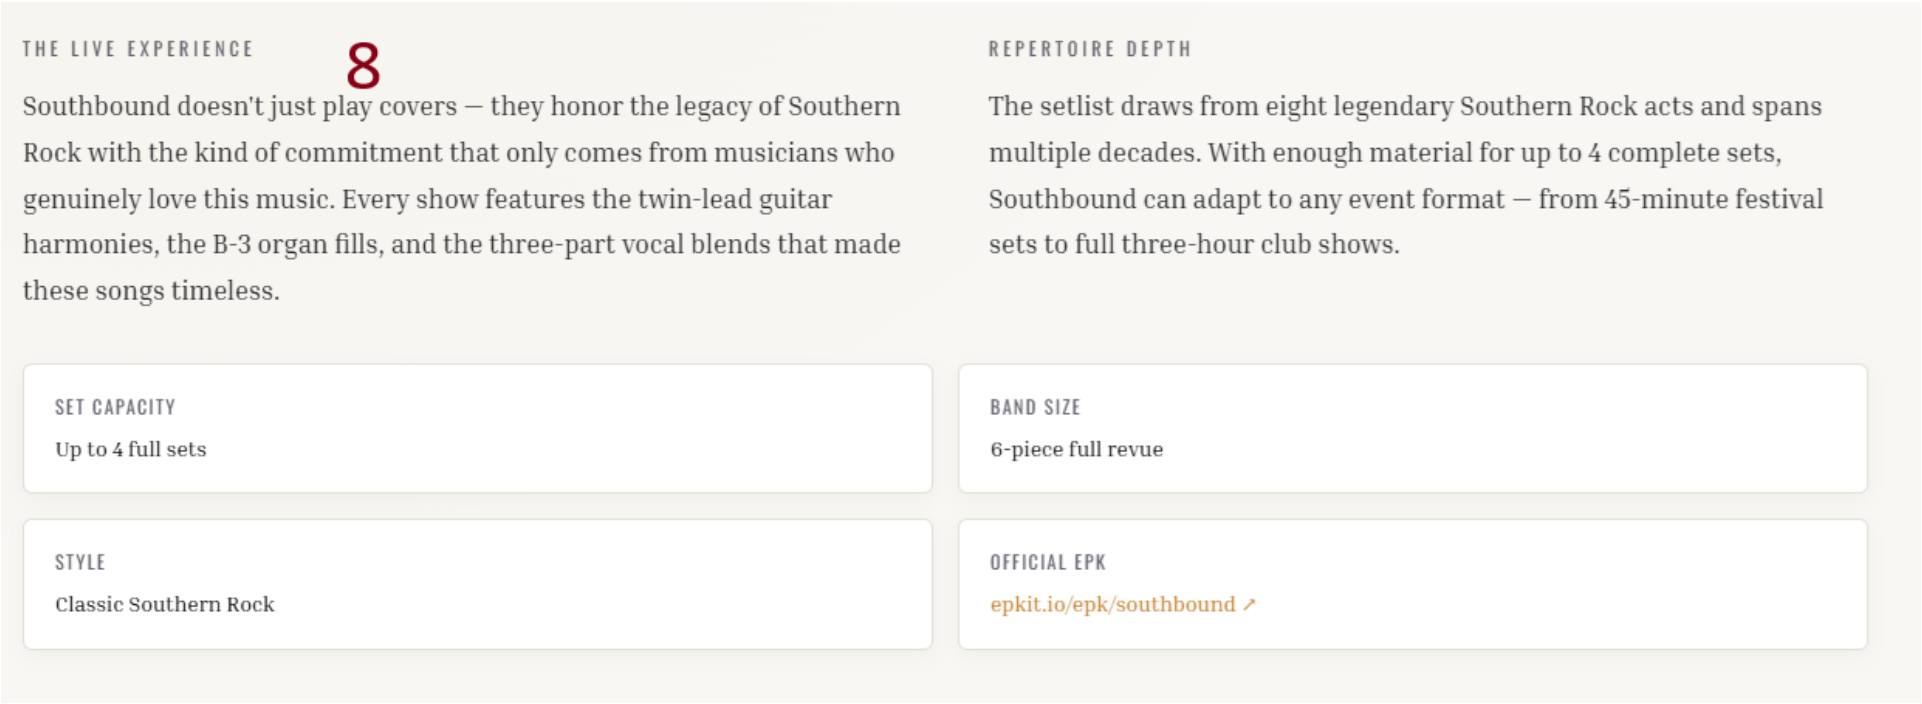

Under the video collection, change the link to the last video called “Concert Reel” to this: https://www.youtube.com/watch?v=RbEp3GUou94 and change the title from Concert Reel to Marshall Tucker Cover.

The Latest Tracks section - will need the ability to change/add additional tracks. Also, these should not be available for download.

8) You can remove this section. It is redundant.

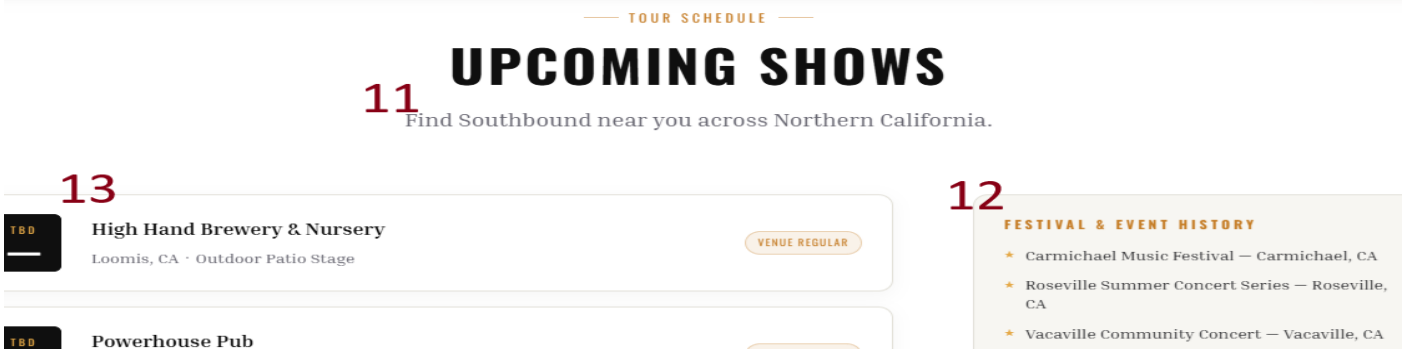

The Live Photography (image gallery) - Will need the ability to change/add the displayed photos.

9) Change the text: “Authentic concert photography from stages across Northern California.” To “Southbound in action!”
10) Remove the links to filter images.

The **Upcoming Shows** section looks good. Some parts will need a way to update with new shows and past shows as they happen.

11) Change to read: Find Southbound near you.
12) I will provide an updated list of event history.
13) These are a list of upcoming shows. Will need a way to add new shows and have past shows removed from the list.

Press Kit & Downloads section. Move this section to the bottom or last. Remove all of the links to the documents and bring the *Need Our Live Interactive Press Kit* area to the top as the only content in this section.

14) Remove the word “Vector”. Change the word Journalists to Press.
15) Remove all the direct links to the documents and photos.
16) Move the box for the Interactive Press Kit to the top and update the verbiage to read: Explore the official live Electronic Press Kit – featuring performance videos, audio demos, easy booking inquiries, stage plot, bios and more. Change the button text to read: “View Official EPK Here”
